Chapter 4. tcshrc FAQ and features

For a full list of the tcshrc features of tcsh that are made available, you should consult the `tcshrc` files and the tcsh man pages. Moreover, there must be a book on the subject from the favourite bookshop.

Q: I did "tar xvfz tcshrc-0.x.tar.gz" and I did not find any RC files!

A: The RC files start with a dot, which means that you need to do

```
ls -a
```

to see them.

Q: When I try the completion, it does not work!

A: You are doing

```
cp /etc/passwd /etc/passwd
```

Q: What does the F1 key do?

A: It prints

Q: What does F8 do?

A: F8 searches the command history

root

```
% cd /etc/
```

Now you want to go to samba/lib.

```
% cd <ESC p>  
% cd /etc<ESC p>  
% cd /usr/local/bin<ESC p>  
% cd /usr/local/samba/lib
```

That is, you press several times
